## Day Sooner Next Week

You'll get your favorite hometown newspaper a day earlier next week.

It's planned that way so you can read about the offerings of local business firms who will have a Moonlight Sale Wednesday night as part of their Crazy Daze celebration.

The change means the deadline for news moves up 24 hours, too. Please, shoot your stuff in by noon Monday.

As an added feature, a copy of the Crazy Daze section will be distributed by carrier to approximately 5,000 homes surrounding the normal circulation area of this newspaper.

Questions? Call HO 9-0101 and ask editorial or advertising departments for aid.

## Jaycees Take On Clean-Up Task Here

A beautification program has been started in Lemon Grove by the L.G. Jaycees. It was reported here Monday by Hal Lenox, president of the newly reformed club.

The club, inoperative for several years, has started to function again, he said. Lenox was recently appointed president pro-tem.

### Street Sweep

The first major undertaking is a business community street sweeping project. The club has acquired the services of A-1 Sweeping on El Cajon blvd. Quido Metzger, proprietor of the service, said that his equipment will give the main streets a thorough sweeping twice a week beginning this week.

Jaycees have committed \$160 a month to the project, according to Arley Lowmire and Floyd Tideman, co-chairman of the clean-up committee.

### Litter Cans

In addition to keeping the streets clean, the committee said flag receptacles will be attached to the street light on Broadway for future flag displays; several litter cans will be placed at strategic points to encourage town cleanliness, and the lemon trees in boxes along Broadway will be revitalized.

## Water Tax Rate Lopped 8 Cents

The Helix Irrigation District board of directors, after sitting as a board of equalization Tuesday, cut sharply the 1964 tax rate for the owners of 44,000 parcels in the district's boundaries.

The rate was cut 8 cents from 54 cents per \$100 assessed valuation to 46 cents. District assessments, unlike most other districts, are based on land only.

Helix 5 cents tax levy is based on actual bond service costs, which are stable from year to year, and the assessed valuation, which rose considerably.

According to Byron Miller, district general manager, a break-up of parcels throughout the district and re-assessment in the La Mesa area accounted for the change.

The 8 cents reduction will save the average taxpayer \$1.20. His tax bill will be about \$7 next year.

Total levy will be \$307,000, Miller said. Total assessed valuation is \$66,918,809.

**GRADING 60% COMPLETED**—Earth moving operations, shown above, on the Grossmont College site in Fletcher Hills are over 60% completed, according to college officials. The contract called for over one million yards of earth displacement for a sum of \$340,000. The cost was \$105,000 less than anticipated initially for the site work. According to the construction contract, all operations must be completed by July 25. A. A. Baxter Company, contractors, have not requested an extension of the contract terminal date since the work is on schedule. Once the site is prepared for construction, it is anticipated that bids will be called for and contracts awarded prior to September 1.

## Montemar Area Zoning OK'd

SAN DIEGO (CNS)—Rezoning of property for half-acre building sites in the middle of a Spring Valley area that caused a recent uprising against the County Planning Commission was approved Tuesday by the County Board of Supervisors.

The supervisors approved the request of Ralph A. Torge to rezone several acres from A-4, heavy agriculture use, to E-1-A, estate zoning with half-acre minimum building lots sizes.

Torge's property is at Montemar and Lamar drives.

Property owners to the west of Torge's property had objected recently to a proposed change in the zoning in the area from heavy agriculture use to single-family residential use for one-half acres.

has been selected as head of the medical service group and Fire Capt. Mark D. Foote is head of the radiological defense service group. The public information representative in Lemon Grove is Hibbard C. Stubbs.

In a disaster the necessary emergency operations in the Spring Valley and Lemon Grove Service Centers would be performed by the service groups working under their respective heads of service, Marty said.

The Service Center Plan replaces the old Zone structure of the County Civil Defense in the unincorporated area.

**Medical Personnel**  
Medical and nursing professions would provide personnel for the medical service group. (Continued on Page 4)

# Chopper Rides, Sale To Kick-off Crazy Daze Here

Local business firms are nervously waiting at the gate for the bugle to blow announcing July Crazy Daze in Lemon Grove. The event is being sponsored by the L.G. Chamber of Commerce and its Merchant's Division.

Most firms have tidied up their storefronts, the town is swept sleek and clean, and the July event is ready for the start next week on Wednesday.

The start will be heralded by a cavalcade of cars at 12 noon Wednesday. Old cars, new cars, relics and antiques will be in the parade. Marcia Manu, Miss Lemon Grove, will be in the lead car. At the same time a helicopter will hover overhead enroute to its parking place on Broadway opposite St. John of the Cross Catholic church.

## Speaker Says S.D. Needs To Develop Port

San Diego and the surrounding areas are destined to become part of an "international gateway" despite the city's provincialism, Frank Curran told the Lemon Grove Men's Club Friday.

Curran, a San Diego City councilman and candidate for the office of San Diego mayor, said the port development would father an international industrial complex that would give perpetual stability to San Diego's economy.

**'Improve Now'**  
"It will be several years before the impact is felt here," Curran said, "but we can do several things to improve our economy now."

"We can develop the tourist service field to improve employment. I have suggested an international training school for hotel service employees. With so many travelers from foreign lands passing through San Diego, our hotel and resort personnel should be multi-lingual if they have jobs greeting visitors. Nothing makes a visitor feel welcome so much as getting answers in his native tongue," he said.

Curran said more ships from the Great Lakes enroute to distant Pacific ports would stop at San Diego for fuel and provisions after clearing the Panama Canal. "We're the closest port," he explained.

He said San Diego should have a Federal Office of Immigration to handle growing world trade activities here. The nearest office now is in Los Angeles.

**Insurance Speaker**  
The Men's Club program Friday will be provided by Chuck Blake, manager of the S.D. area for industrial indemnity firms. He will tell about the rising cost of auto insurance.

The club meets every Friday at noon and all men are invited. The club will be dark July 19, however. The meeting is being moved up to the night of July 18 when Tony Sonka, one of the original members of the club, is honored at a banquet at Michael's. Women may attend the banquet, Jack Cummings, club president said.

## French Poodle Is Top Prize

Prizes at the Street Dance Friday on the Mayfair parking lot include a genuine French Poodle worth \$100, a stereo-phonograph set and four box seats to the Padres.

Contestants need not be present for any of the approximately 100 prizes except the three major prizes listed above, according to L.G. Jaycees sponsors of the dance and contest.

The poodle is on display at the Pampered Pet shop.

mage sales for the event. Court Teresa of Avila will occupy the shop formerly operated as Clark's Dept. store.

## Watermelon 'Bust' For L.G. Kiddies

Lemon Grove kiddies are invited to an old-fashioned watermelon "bust" as part of Crazy Daze celebration next week on Thursday.

Bird said, "... it won't be a speech. I'll just reminisce a little." Bird is also a long-time member of the Men's club.

Selected as Toastmaster for the evening is Municipal Court Judge Luther N. Hussey, a long-time Lemon Grove resident. He will apportion time to those who wish to add a word or two about yesteryear.

Judge Hussey is also a long-time Men's club member. The program is being arranged by Charles Buckles.

Bird, as supervisor, and Son-

Merchants will continue their sales throughout Thursday, Friday and Saturday.

### Street Dance

On Friday, the L.G. Jaycees will have a giant street dance and door prize drawing on the Mayfair lot at Broadway and Olive streets. Dancing starts at 8:30 with a television personality as master of ceremonies. Demonstrations of square dances will also be offered. Miss Lemon Grove will again take part. She will be queen of the event.

The Crazy Daze event will be concluded with the close of business Saturday.

## Rummage Sale Is Crazy Daze Event

A rummage sale sponsored by Court Teresa of Avila No. 1580 will be held in Lemon Grove in conjunction with L.G. Crazy Daze, July 17 to 20.

Buckles has arranged for a red carpet to be laid from the curb to the door of the cafe. Inside, a guest book will be for signing by guests. Those who cannot attend may wish to send a note which will be put in the guest book, Buckles said.

### Women Welcome

Dr. Frank Gigliotti, ticket chairman, pointed out that women are also invited to the banquet. A steak dinner including salad and dessert will be served starting at 7:30 p.m. Dinner is \$2.50 a person or \$4.50 a couple. ## 'Man Sized Jobs' Asked

DENVER, COLO. (SPCL)—The President of the United Church of Christ wants his denomination to put its members to work at "man sized jobs."

Reporting to the General Synod of the church of which Mrs. Ben Elia of 1610 Elroy dr., Lemon Grove, is a delegate, the Rev. Dr. Ben. Mohr Herbst of New York, warned against the tendency to turn over responsibility for the mission of the church to the professional staff.

Laymen and women must be given significant tasks... "something different from ushering, serving on inconsequential committees or cooking church suppers," he said, if they are expected to give their devotion and support to the church.

## Wesleyan Methodist Conference Raps Pornography, Drinks

Five delegates and three pastors of the Skyline Wesleyan Methodist church of Lemon Grove attended the State conference at Whittier recently.

From the Conference, according to the Rev. Jimmy F. Johnson, assistant pastor at the Lemon Grove church, a resolution dealing with moral concepts of the approximately thirty churches in the State Conference resulted.

A resolution for social action, coming from the first such commission the Conference has ever had, spells out the group's position on such things as pornography, alcoholic beverages, narcotics, smoking, communism, socialism, and gambling.

Negative positions in strong language were taken on each. The Conference viewed with alarm the loss of Constitutional rights suffered by Americans.

The "Dictionary of American Slang" and "The Last Temptations of Christ" were pointed out as being examples of "obscene and blasphemous" literature.

Pastors Orval Butcher, Derric Johnson and Jimmy Johnson and Church Delegates Alf Hansen, William Holman, Paul Hower, Jr., V. M. Henderson and Harry Scally were in attendance.

## Rabies Control Workshop Called

A two-day workshop on rabies control along the United States-Mexican border is scheduled for rabies control personnel July 18 and 19 at the San Diego Department of Public Health building at the Civic Center.

Rabies has been a widespread problem along the border. In the San Diego-Tijuana area alone there have been 135 laboratory confirmed cases of animal rabies since September 4.

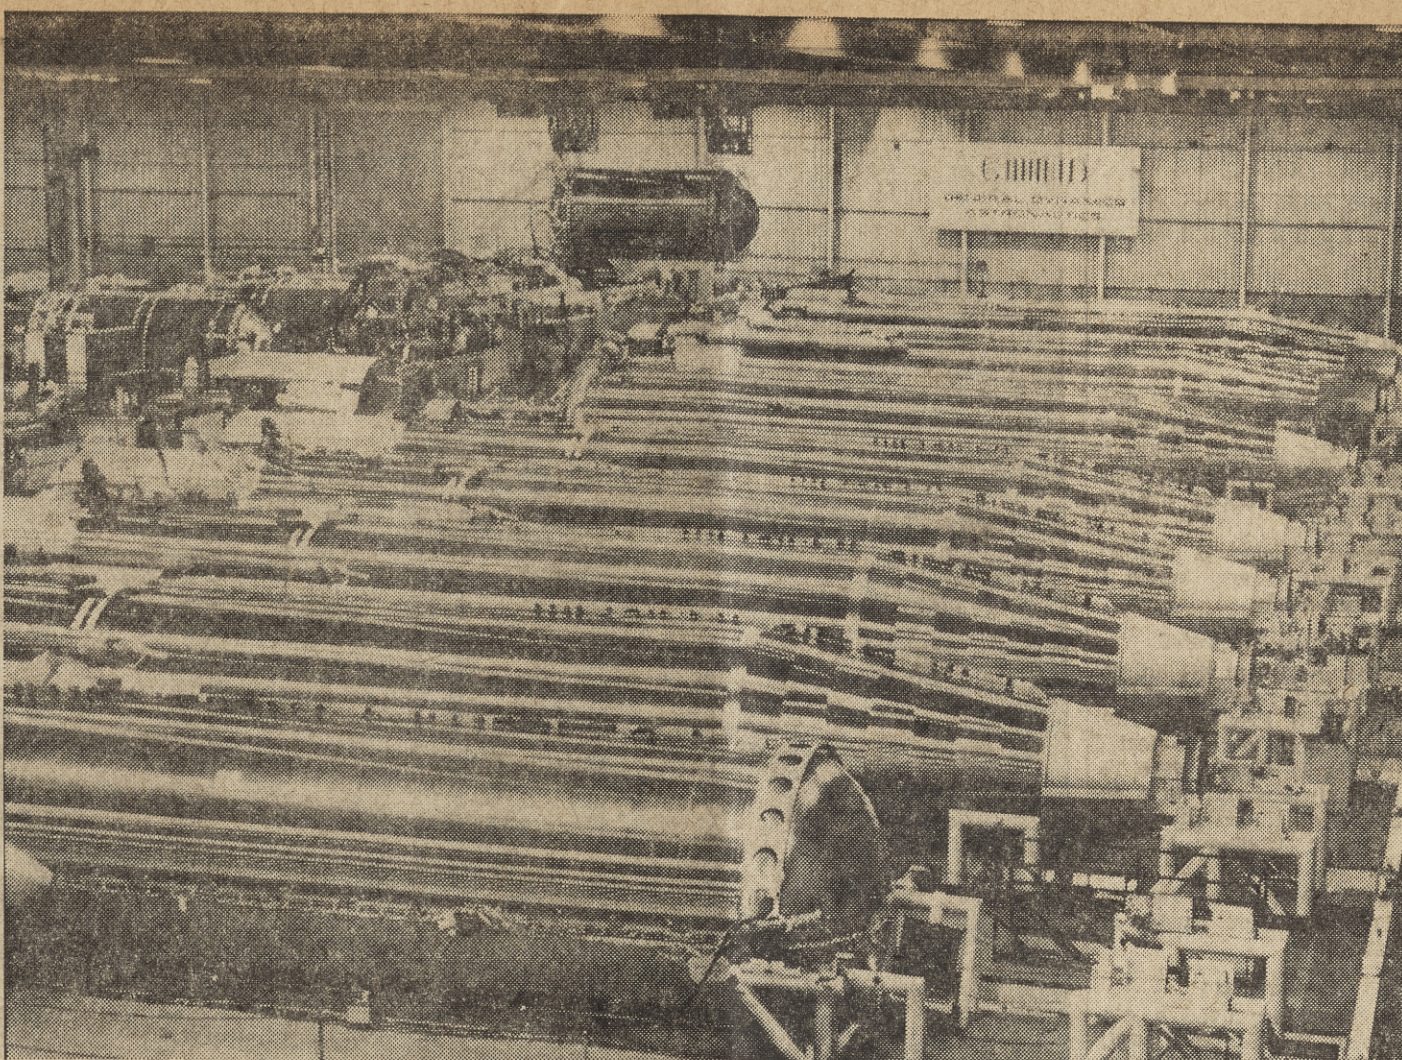

The border rabies control workshop will be sponsored by the Pan American Sanitary Bureau, which is the Western Hemisphere Branch of the World Health Organization, in cooperation with the California State Department of Public Health, the U.S. Public Health Service and the San Diego Department of Public Health. It has been planned specifically for persons working in rabies control in California, Arizona, Baja California and Sonora.

Dr. J. B. Askew, director of the San Diego Department of Public Health, said notices of the workshop have been sent to veterinary medical groups; city and county health officers; animal control officers; county livestock departments; state sheep, cattle and farming groups; and other federal, state and local governmental agencies concerned with the control of rabies.

The two-day workshop program will cover the problems involved in rabies control, specific rabies control programs that have been conducted along the border, the organization and administration of a dog pound and demonstration, as well as practice of laboratory methods of rabies diagnosis.

## Victim Denies Pistol Pointing

Albert Candelaria, 19, a busboy at Anthony's Fish Grotto in La Mesa, who was shot by La Mesa police early Monday, pleaded innocent Tuesday to a charge of exhibiting a fire arm in a threatening manner.

The youth, who lives in National City, was shot by Patrolman Robert Oliver of La Mesa after he said he warned Candelaria three times to drop a pistol which was allegedly pointed at the officer.

The youth entered his plea from County hospital where officials described his condition as "improved."

Candelaria said he returned to Anthony's about 3 a.m. after a card game Sunday night and got the pistol from his locker to show it to a friend.

## Superintendent Smith Recommends Shift in Duties

Lewis Smith recently requested a shift of his administrative duties as superintendent of the Grossmont Union High School and Junior College Districts.

At a July 2 annual organizational meeting, Smith asked district trustees to transfer his duties as superintendent to Harold G. Hughes, associate superintendent of both districts.

Smith made the recommendation so he can assume full-time responsibility of the high school district's affairs, Hughes said.

Deputy Superintendent Hughes now heads the business administration, financial and building programs of both the high school and junior college districts. According to Smith's recommendation, Hughes would take full charge of the junior college district's responsibilities in addition to his present duties as deputy superintendent to both districts.

### One Dollar More

If the district trustees approve Smith's recommendation, Hughes will take on the added burden as superintendent of the expanding junior college dis-

trict, and will receive one dollar a year more for these services. His present salary is approximately \$17,000 per year, and Smith's is about \$18,000, Hughes said.

Trustees considered Smith's recommendation and tabled it for further study.

### Chairman Re-elected

In other action at the annual organizational meeting of the District Board, Rexford L. Hall, Portia B. Goods were re-elected chairman and clerk, respectively, of the High School and Junior College District Boards.

George "Bud" Birch assumed his position of trustee in both districts.

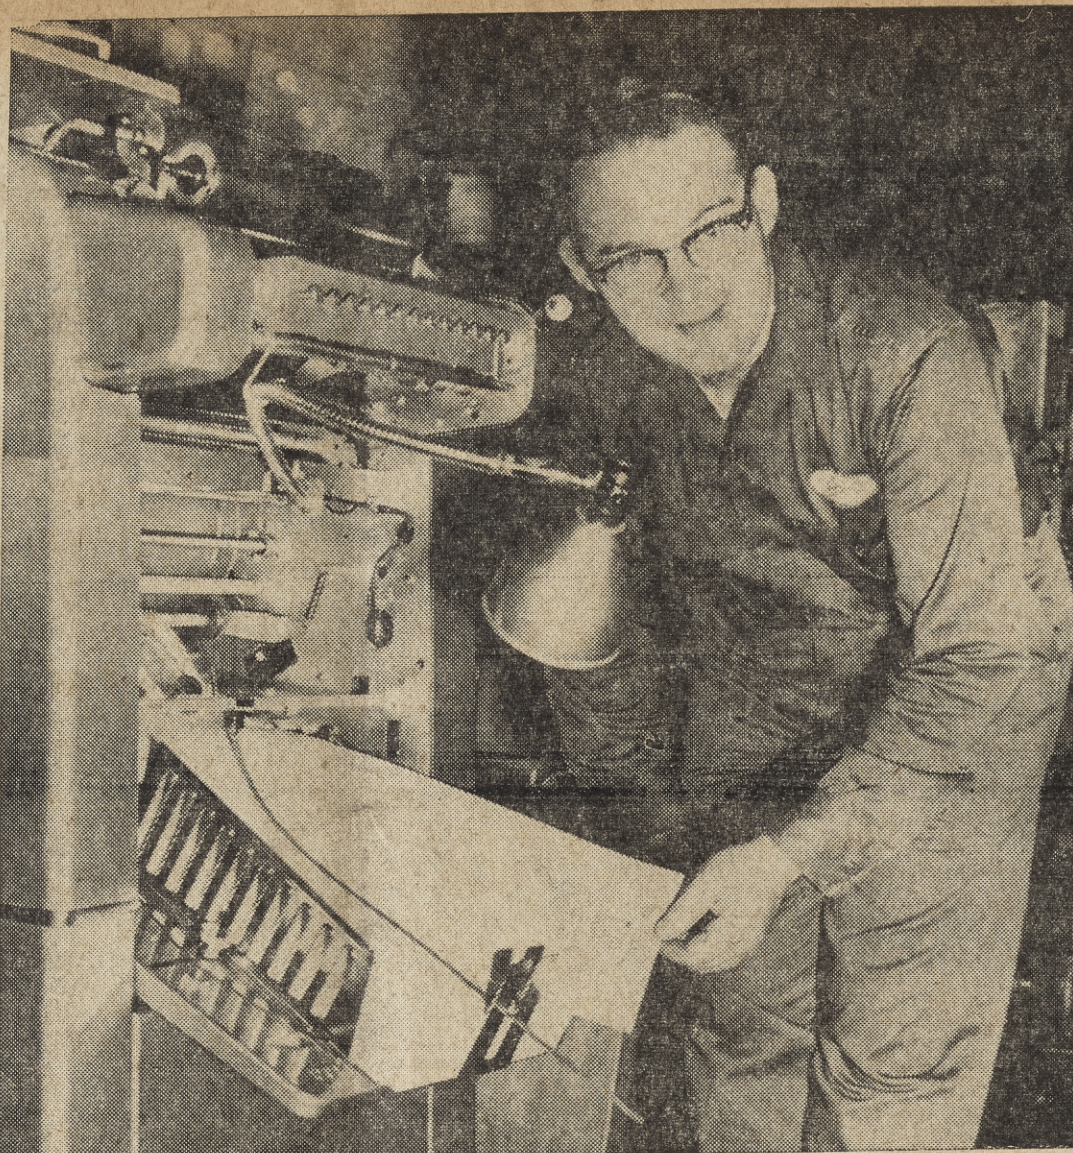

### Sewer Lines

The Board approved a contract with the Santee County Water District for the development of water and sewer lines to serve the new junior college site on Fanita Drive extension in North Fletcher Hills. Action was taken, however, subject to a review of the bids on the water portion of the contract.

### Dental Program

Mary Ann Escamilla was appointed instructor for the new Dental Assistant program at the Grossmont College for next year. Also, the Grossmont College Faculty Association was approved as a recognized employee organization representing the certificated employees of the College.

The Board of Trustees adopted a schedule of meetings for the first Monday of each month for the High School District and the third Monday of each month for the Junior College District, beginning in September.

**NEW PRESS** — A new offset press has been added to the equipment in the backshop of this newspaper. The press, capable of turning out more than 5,000 printed pieces an hour, is completely automatic.

It picks up the paper to be printed, puts it in the proper position, prints it, then delivers it in a stack. The finished product is jogged so that all that is left to do is to box it. It is used to print booklets for women's clubs; brochures for churches, programs for Little League teams, envelopes, letterheads, handbills, and anything else that is printable.

Jim Brown, composing room foreman, is shown with the press, a brand new A. B.

Dick. He is also in charge of all four presses the firm owns.

The press handles a sheet size larger than many presses. The Dick takes a sheet as large as 11 by 17 inches and prints it in as many colors as required. It prints from a blanket upon which the printing image has been imposed from a thin metallic plate. The image is "burned" on the metallic plate from a negative. The negative is produced by a big fixed camera which is used to photograph the material to be printed by the press. The off-setting of the image from plate to blanket to paper gives the process its name of "off-set" printing.

The burglar's trip was not in vain, however. Before he left he broke the window-wing of Shepard's car parked at the curb and took a movie camera, 2 pairs of binoculars and 2 stor-

watches, total value \$310.

He will function as clergyman and department chaplain of burial rites at Fort Rosecrans National Cemetery for all Veterans of Foreign Wars who die in the next year, and will make visits to veterans' hospitals.

### Canadian Army

He joined the Canadian Expeditionary Forces in 1914 and served during World War I in France and Belgium until 1917. For performance beyond the call of duty in routing out two machine gun nests, Rev. Hughes received the Canadian Distinguished Conduct Medal.

### Pilot

In 1917 Hughes was transferred to the Canadian branch of the Royal Flying Corps, received pilot training and was commissioned a second lieutenant. He left the Canadian Army in 1918 as a U.S. citizen and entered the U.S. Army in Janu-

### Civil Defense

(Continued)

trained radiological meter operators would man the radiological defense service group, and amateur radio operators would work in the communications service group.

The emergency welfare service group would operate during a war-caused disaster only, Marty said. During a natural disaster the welfare and care of individuals is the responsibility, assigned by Congress, of the American National Red Cross, he said.

### Community Groups

Emergency welfare service groups would be staffed by members of churches, welfare, service and community organizations in each Operations Area, will be organized to conduct mass care operations in food, shelter, clothing and registration of persons. They will assist in reuniting families and in rehabilitation work.

An important mission will be provision of management leadership for Congregate Care Centers. The facilities of schools or of welfare and private organizations will be used as such centers. School boards throughout the county have approved the use of their school buildings for this purpose in time of war, he said.

A versatile performer, Williams will be seen in all four of Starlight's 1963 presentations.

Acclaimed by critics, "Around the World in 80 Days" is one of the most elaborate productions ever staged in San Diego. The musical comedy will be followed by Sigmund Romberg's "The Desert Song," which opens July 18.

## JEHOVAH'S WITNESSES PLAN 'WORLD' MEET

Members of the Lemon Grove-Spring Valley congregation of Jehovah's Witnesses will experience something new in conventions this year, according to Carl E. Jones, presiding minister. "Never before has there been a convention like the Around-the-World Assembly of Jehovah's Witnesses we have scheduled for September," he said.

According to Jones, there will be three conventions instead of one. "Instead of bringing delegates from all around the globe to one point in the United States, there will be three: Milwaukee, New York and Pasadena. "What makes this assembly different is that it actually moves around the world and stops at twenty-four different cities in just ten weeks. Not only do some of the main speakers travel with the assembly around the world but so also do a large body of delegates," Jones stated. "These delegates, almost six hundred in number, will also share in the assembly activities as they circle the globe, beginning at Milwaukee, Wisconsin, on to New York, London, Europe, the Near East, Australia and culminating at Pasadena, California."

## Employment Tax Deadline Nears

Employers have an important tax deadline on July 31.

R. A. Riddell, District Director of Internal Revenue in Los Angeles, reminded all employers that this is the due date for reporting and paying income tax withholding and social security taxes for the calendar quarter ending June 30, 1963.

Employers should use Form 941 to report their tax liability for this period, Mr. Riddell said.

Mr. Riddell pointed out that taxpayers who made timely deposits in the Federal Reserve Banks, or local authorized banks, of taxes due, have an additional 10 days after July 31 to file their returns.

Employers who do not have a copy of Circular E, "Employers Tax Guide," may obtain it from the local Internal Revenue Office. This publication contains a full discussion of employment taxes as well as tables and percentage methods for computing such taxes.

## L.G. School Budget OK'd

The Lemon Grove school district 1963-64 budget was officially okayed Monday and the amount was \$1,807,395, \$16,000 less than the amount submitted.

The difference, Byron Netley, district superintendent said, was because less state aid was available. The assessed valuation was a trifle higher than anticipated, but a net loss was experienced.

Netley said the difference in the budget was "extracted here and there."

In other action at the regular board meeting Monday night, trustees drafted a resolution to the state legislators urging them to support legislation providing more state aid.

## Cafe To Mark Second Birthday

The second birthday anniversary of Michael's Cafe will be celebrated July 17 and the public is invited, owner Bill Goldy said this week.

The restaurant, at 7828 Broadway, in Lemon Grove, will offer free dancing to a live orchestra all during Wednesday evening.

Free buffet will be opened during the evening and hors d'oeuvres will be served from 7 p.m.

Marcia Manu, Miss Lemon Grove, will be dinner hostess, Goldy said.

Souvenirs and favors will be distributed at various times during the celebration, he said.

The cafe will be the scene of the Tony Sonka banquet the following night.

## Local Deputies Now Report To El Cajon

Patrolmen of the sheriff's department, normally reporting in at Lemon Grove for night duty will report to El Cajon in the future, Sheriff Joe O'Connor ordered this week. They will also get a daily briefing there.

O'Connor said the order had nothing to do with an eventual change that will see a central east county sheriff's headquarters midway between El Cajon and Lemon Grove, probably in Casa de Oro.

O'Connor said in a talk at the L.G. Men's club two weeks ago that the central location was feasible and desirable.

He said that the first step toward a centralized east county office was yet to be taken but such an office would be a reality in several years.

Meanwhile, fewer patrol cars will be seen in Lemon Grove during the reporting period. The Lemon Grove station will continue to function as in the past.

He ordered night patrol cars to be manned by two deputies in the future in the interest of more effective service.

## Hootenanny Is Friday

The Rock Island Singers, Bill and Ken Powell and other folk artists will perform Friday at the third Heartland Hootenanny at the Northmont Community Church in North La Mesa.

The singing, with Dan Odum of KOGO-FM as master of ceremonies, will begin at 8 p.m. on the church parking lot, 6050 Henderson dr.

The Rev. Mr. Donald O. Fatchett states the programs are designed primarily to bring together young talent and willing listeners in the Heartland area. At present, Northmont Church plans to sponsor a "Hootenanny" August 9 and September 13.

Refreshments will be served during the performance. There is no admission charge.

## Medical Society Warns:

# Watch Eyes When Scanning the Skies

Spring Valley-Lemon Grove residents who look directly at the eclipse of the sun during the afternoon of July 20 may cause serious and permanent damage to their vision, San Diego County Society officials warned recently.

"There is no safe way to look directly at a solar eclipse—even for a few seconds—and children will be particularly susceptible

to vision damage," Dr. Georgebe observed safely," Dr. Tabor said.

Tabor, president of the Ophthalmological Section of the Medical Society, said.

**Protection**  
"Sun glasses, smoked glass and exposed photographic film are not adequate protection," he said. "Many who have used these during the past view of an eclipse have suffered serious and permanent eye injuries."

Medical Society ophthalmologists (eye specialists) have pointed out that the human eye has a focal power of more than 35 units or some five times greater ability to concentrate light into a point of focus than most magnifying glasses.

**Permanent Damage**  
"It will not take more than a few seconds of viewing of a partial eclipse of the sun, the visible and infrared rays shining around the edge of the moon to etch a hole through the sensitive tissue inside the eye and to cause permanent damage at the point of focus," Dr. Tabor said.

**Opportunity For Damage**  
"Because the intensity of solar radiation is misjudged in the apparent twilight and because the retina of the eye is not sensitive to pain, the victim does not realize the injury has occurred until it is too late. Such retinal burns are incurable and the victim has a blank spot in his field of vision where the burn scar remains in the retina."

**Retinal Burns**  
Widespread cases of damaged vision were reported in western states from the 1960 eclipse. In the state of Washington alone more than 75 children suffered retinal burns and in the state of Utah all but five of 31 serious eye burn cases were children. In Australia 170 people suffered permanent visual damage and some looked at the eclipse less than 10 seconds.

"Only by indirect viewing methods, such as on television or through use of simple projection devices, can the eclipse

**Projection Devices**  
One simple projection device can be made by using two pieces of white cardboard. The viewer stands with his back to the sun and holds one piece of cardboard and the pin hole in it about his shoulder with his right hand. This cardboard and the pin hole serves to project and focus the image of the eclipse on the second piece of cardboard, which is held by the other hand at a lower level. The size of the image can be changed by altering the distance between cardboards.

A similar device can be made for children by placing a box with a pin hole in it over the head with the pin hole above the back of the head. With the child's back turned toward the sun, the eclipse image is projected through the pin hole, over his head and on to the opposite side of the box. Extreme care must be taken to see that the child never looks through the pin hole at the sun.

**Son Arrives In Time for Anniversary**  
"A solar eclipse has a deservedly popular appeal," Dr. Robert T. Plum, president of the Medical Society, said. "The physicians of San Diego County hope this will be an opportunity for everyone to observe a great astronomical phenomenon, but not an occasion for precious vision to be damaged." The eclipse on July 20 will cause complete darkness in parts of Alaska, Canada and the state of Maine and partial darkness in all other areas on the North American continent.

## Son Arrives In Time for Anniversary

Airman Third Class Robert Denlinger, 21, surprised his family when he returned home on a 30-day leave during the month of June.

"It's was quite a Mother's Day present," Mrs. Albert Denlinger said. "He came home in late May and was here to help celebrate our 23rd wedding anniversary on June 21st." Mr. and Mrs. Denlinger have lived all 23 married years in Lemon Grove at 8215 Golden ave. Albert Denlinger is a native of this community.

During his leave from Biggs Air Force base, the young airman successfully completed a series of scuba lessons sponsored by the San Diego Diving Association. A 1961 graduate of Mount Miguel High, Denlinger was active on the Carman Ranch and Mount Miguel swim teams.

He also was a Boy Scout in Troop 108, sponsored by the L.G. Congregational Church, and transferred to Post 333 of the L.G. Methodist Church when he became an Explorer Scout, Mrs. Denlinger said. His father, Albert, who has been active in Scouting about 18 years, is presently a Troop 333 committeeman.

Sharing his visit home were his brother, Ronald, 16, and, Carol, his 19-year-old sister. Carol will leave home in August to attend Weaver Airlines school in Kansas City full-time.

## Employees To Take Civil Defense Meter Training

Two Standard Oil Co. employees were trained last week in the operation of radiological metering instruments, according to William B. Marty, county administrator for civil defense.

Paul A. Miller, 1620 Larwood rd., Lemon Grove, and Eugene A. Moore, 1331 Sheryl ave., Chula Vista, received training in meter operation as part of the county's civil defense training program. Employees of industrial and business firms, which would have a high priority role in a national disaster, have been included in the program, Marty said.

"If a war-caused disaster should ever occur in this country, gasoline and petroleum products would be among the most critical items needed," Marty said. "The petroleum industry would require knowledge of the problems created by radiological fallout and training in the use of instruments required to measure radiation intensity."

The Unified County Civil Defense Organization will encourage participation by the petroleum industry in the County's civil defense training program, he said.

The couple will wed August 3 at 1 p.m. in the Lemon Grove Lutheran Church on Skyline drive. A reception will follow at the Spencer home, 1717 Presioca st., Spring Valley.

John Spencer, a 1961 graduate of Mount Miguel High, is the son of Mr. and Mrs. William L. Spencer, 391 Bowie st., San Diego 14. He is employed at General Dynamics Astronautics.

The bride-elect was graduated from Mount Miguel in 1962, and attended Grossmont Junior College taking a business course.

The couple plans to reside in Spring Valley.
